

Title

Subtitle

Background and Opportunity:

Opening vision, scientific context, state of the art, central gap, and why the problem is timely. This section should establish the overarching research question and explain why resolving it matters.

Research Programme:

Brief overview of the programme, explaining how the work packages fit together and how they collectively address the central research question.

The programme is organised into four interdependent work packages:

WP1 – WP1 title. (*Years 1–2*)

Objectives: Narrative description of objectives for the WP.

Methodology: Theoretical, computational, or experimental methods that will be used to achieve the objectives.

Deliverables:

- Deliverable 1.
- Deliverable 2.

Brief comment on the contingency plan.

WP2 – WP2 title. (*Years 2–3*)

Same structure as in WP1.

WP3 – WP3 title. (*Years 3–4*)

WP4 – WP4 title. (*Years 4–5*)

Significance and Outlook:

Scientific significance of the programme, the advances it will enable, its broader relevance, and how it establishes a distinctive long-term research direction beyond the fellowship.
